TECHNICAL SUMMARY

Software Engineering student proficient in C++, Python programming, Data Structures, Object-Oriented Programming, Backend Development, RESTful APIs Distributed Systems basics, Database Management, and Scalable Web Applications. Experience working in Agile environments and solving complex technical problems.

Education

Indira Gandhi Delhi Technical University for Women

Aug 2023 – May 2027

Bachelors of Technology, Information Technology

Technical Skills

Languages: C++, Python, HTML, CSS, JavaScript

Core CS : Data Structure and Algorithms, OOPS, OS, DBMS, Complexity Analysis

Development Tools : Git and GitHub, VS Code, Jupyter Notebook

Frameworks Databases : Node.js, RESTful APIs.

Soft Skills : Problem Solving, Collaboration, Leadership, Time Management, Communication

Projects

SkillSync AI | React.js, Node.js, Express.js, MongoDB Atlas, Google Gemini AI, JWT, Cloudinary, Render

- Developed an AI-powered recruitment platform with **role-based authentication**, job management, application tracking and deployed the application on **Render**.
- Implemented **semantic embeddings**, **LLM-based resume analysis**, and **AI-powered candidate-job matching**.

Pricing Strategy Optimization Dashboard | Power BI, DAX, Data Modeling, SQL, Data Cleaning

- Built Power BI dashboard analyzing price elasticity, revenue and profitability using DAX KPIs and segmentation.
- Provided insights for data-driven pricing strategy and revenue optimization.

Fake News Detection System | Python, NLP, TF-IDF, Machine Learning

- Built an NLP-based fake news classifier using TF-IDF with Logistic Regression / Random Forest models.
- Performed preprocessing and evaluation with precision, recall, F1-score and confusion matrix.
- Authored a research paper analyzing methodology, dataset and model performance for fake news detection.

Experience

AppSquadz Software Pvt. Ltd. | Software Developer Intern

June 2026 – July 2026

- Assisted development team in building and debugging software applications. Used Git for version control.
- Performed SQL database read and write, feature testing, code reviews, and prepared technical documentation.

Timeout Productions | Business Development Associate Intern (**Startup**)

July 2025 – Sep 2025

- Orchestrated production workflows and resource allocation for high-velocity digital media content delivery
- Directed post-production quality assurance and managed operational logistics to ensure technical project continuity

Internshala Trainings | Web Development Intern

June 2024 – Aug 2024

- Developing a responsive full-stack web app using HTML, CSS, JS, Bootstrap, React, PHP, and MySQL.
- Exploring AI integration in web projects and implementing real-world features.

Achievements

- SHARK TANK JCBUST Hackathon 2026** : Ranked among the top 20 teams out of 200+ participants, organized by the Institution's Council (8.0).
- Product Prodigy Hackathon 2025** : Selected among top 25 finalist teams from 10,000+ participants; designed and presented a product solution through structured problem analysis, user research, and solution validation.
- Event Management | Tarangna 2025** : Coordinated multi-event scheduling and logistics using structured planning and data-driven resource allocation during the annual university fest.
- Smart India Hackathon 2024** : Top 15 team at university level; cleared internal selection round.
